

As an original co-sponsor of H.R. 5, the HEALTH Act, I am proud of my colleagues for passing comprehensive medical liability reform. Access to quality healthcare remains at crisis levels throughout Illinois. Doctors continue to leave the state with malpractice premiums continuing their upward spiral. This is a crisis for women who cannot find an OB/GYN. This is a crisis for seniors and children who have no neurosurgeons nearby in times of emergency. I urge the Senate to act quickly to pass the HEALTH Act so we can restore access to quality healthcare to everyone in Illinois.
